PERMIT 4918

APPLICATION 7143

THIS IS TO CERTIFY, That Santa Clara Valley Water Conservation District  
San Jose, California Notice of Change (Over)

has made proof to the satisfaction of the Division  
of Water Resources of California of a right to the use of the waters of Stevens Creek in  
Santa Clara County

tributary of San Francisco Bay

for the purpose of irrigation and domestic uses  
under Permit 4918 of the Division of Water Resources and that said right to the use of said waters has  
been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources  
and the terms of the said permit; that the priority of the right herein confirmed dates from December 9, 1931;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited  
to the amount actually beneficially used for said purposes and shall not exceed four thousand (4,000) acre  
feet per annum by storage collected from about December 1st to about April 30th  
of each season, and held temporarily in Stevens Creek Reservoir and then charged  
into the storage basin underlying Santa Clara Valley Water Conservation District  
at rates in keeping with the absorptive capacity of the stream channel and spreading grounds provided. Water thus stored underground is recovered for use on overlying lands within the District by means of pumping plants as and where required.

The point of diversion of such water is located North  
eighteen hundred seventy (1870) feet from the quarter corner between Sections 27  
and 28, T 7 S, R 2 W, M.D.B.&M., being within the NW $\frac{1}{4}$  of NW $\frac{1}{4}$  of said Section 27.

A description of the lands or the place where such water is put to beneficial use is as follows:  
within the boundaries of the Santa Clara Valley Water Conservation District comprising 133,000 acres as shown on that certain map filed with the Division of Water Resources, March 22, 1937.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Division of Water Resources in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Division of Water Resources.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.
